

JHS/FTC CAREER PATHS

Your guide to success in the 21st Century.

Foundation Knowledge & Skills make up the core curriculum for all JHS/FTC students. Students may then choose one of five career paths. Within each career path, students may focus on areas of emphasis called clusters or refine their study to one specific pathway. For example, a student with an interest in Business/Information Technology may choose the Business/Information Technology Career Path, the Finance Cluster, and the Accounting Pathway as an area of emphasis.
